Introduction

EUPEA
EUROPEAN PHYSICAL EDUCATION ASSOCIATION

About EUPEA

- Founded in 1991 in Brussels
- Declaration of Madrid 1991, amended in Brussels 2011

“No Education without Physical Education”

- The umbrella organization of the national Physical Education Associations in Europe
- Members in more than 30 countries in Europe
- Focus on promotion of and advocacy for Physical Education

As Quality Physical Education (QPE) is a widely discussed topic, there are several inspiring sources about indicators for QPE:

- Narrative literature review on categories of QPE indicators
- Statements from significant institutions and organizations
- The deliberations from the EUPEA/UNESCO Seminar on QPE
- Former EUPEA experience in European PE surveys

Categories of QPE indicators

EUPEA
EUROPEAN PHYSICAL EDUCATION ASSOCIATION

Impact levels of QPE categories (Scheuer & Holzweg, 2014, p. 64)

Scheuer, C., & Holzweg, M. (2014). Quality in physical education: an overview from the perspective of physical education teacher associations. In C. Scheuer, B. Antala, & M. Holzweg, *Physical Education: Quality in Management and Teaching* (pp. 62–71). Logos: Berlin.

In general, a lot of factors can have an impact on QPE. The following categories generally structure the different factors (Scheuer & Holzweg, 2014):

- Quality aspects in relation with input or human resources can be summarized under the category **Structure**;
- Quality aspects linked to the context and to the process are overlapping and can be brought together under the category **Process**.
- Quality aspects focused on outcomes or output and on objectives could be outlined as **Product**.

EUPEA/UNESCO Seminar on QPE

EUPEA
EUROPEAN PHYSICAL EDUCATION ASSOCIATION

EUPEA/UNESCO Seminar on Quality Physical Education. Report – Paris, April 4th 2014

1. Quality of Physical Education (QPE) must be conceived as a **multi-systemic phenomena** implying the consideration of the following levels: **structure, process and product**
2. At the **structure level** QPE must be represented by:
 - a. The use of **systematic School PE advocacy** for the society in general, policymakers (government, parliament, political parties), head teachers or school principals (each school, principals' associations), parents (individually, parents' associations)
 - b. The formal clarification of the PE conceptual orientation including together the ideas of the **inclusive learning skills and learning to learn**, within a **positive ambiance**, in order to **promote physical literacy and a healthy lifestyle based on physical activity and sport life-long**
 - c. The physical and emotional **secureness of the school and its surroundings**
 - d. The existence of **motivated and qualified/competent PE teachers** (attending specific training in a PE teaching master degree),
 - e. **PETE that follows clear rules** for ITT qualification (including the practicum and probationary training) and that promote the integration between CPD (Life-long learning programs) and the structured careers development

EUPEA
EUROPEAN PHYSICAL EDUCATION ASSOCIATION

EUPEA/UNESCO Seminar on Quality Physical Education. Report – Paris, April 4th 2014

3. At the **process level** QPE needs to be characterized by:
- The presence of **formal curricula** proposals, offering **content diversity** (including expressive activities), matching the **local cultural interesting**, based on teachers' collegiality in decision-making
 - PE lessons oriented to improve: a **positive learning environment**, the **students' understanding**, the **challenge for all students** and the **learners' autonomy and responsibility**
 - The PE delivered school must be **autonomously and regularly evaluated** involving as participants the teachers and the students, focused on the appreciation of the learning outcomes, and the teachers evaluation
4. At the **product level** QPE will be represented by:
- The existence of **formal and systematic PE learning assessment**, including **physical fitness and values**, mainly developed in a formative way, focused on **PE competencies**, grading the learning gains, assuring its meaningfulness

Conclusion

EUPEA
EUROPEAN PHYSICAL EDUCATION ASSOCIATION

- Situation in Europe with regard to QPE on the different levels of *structure*, *process* and *outcome* of PE is very diverse
- In many European countries a lack of quality of different QPE indicators remains prevalent
- A European monitoring system to evaluate QPE on a regular basis is strongly needed
- Contribution from the scientific community that is engaged in the field of PE

Establishment of a regular observatory for QPE, put in place and run by the different stakeholders: PE researchers and PE practitioners

Initial general aim of EuPEO

To develop an European monitoring system for PE, SS and PA, and its context of implementation (curricula, teacher training, logistics, learning outcomes, active school, active learning, etc.)

Initial specific aims of EuPEO

At the local, national, regional and European levels:

- to identify the conditions of the implementation and outcomes of Physical Education (PE) and School Sport (SS), and
- to obtain evidence to develop proposals and advocate for the improvement of QPE and QSS

- A systematic process of data collection, analysis and feedback recommendations
- The logistics (human resources and facilities) to assure this process

Indicators for PE and SS quality

- Teachers (qualification, age, other characteristics)
- Facilities (accessibility, quality and maintenance)
- Timetables (total time allocated, weekly distribution of the curricular load, etc.)
- Curricular processes (constraints, problems and difficulties of implementation of the national PE curriculum, etc.)
- Assessment processes (parameters and criteria for students' grading, evaluation protocols, constraints to the implementation of the reference standards for success, etc.)

Operational aims of the EuPEO project

Develop the instruments, by identifying, collecting and integrating valid existing instruments (parameters, criteria, and procedures) to produce

- A **Manual for External Assessment (MEA)** will correspond to the rules for using the final platform at the national level, constituted by two questionnaires (to schools and pupils) and by a PE learning outcomes and Physical Aptitude assessment system.
- A **Toolkit for Internal Monitoring (TIM)** will be composed by a set of instructions concerning the QPE manual indicators to be used within each school as a monitoring procedure and to inform the improvement of those indicators.

- Collectively the partners will develop the **MEA** and **TIM**
- Some countries will test the instruments in pilot studies:
 - Manual of PE Monitoring and Evaluation in a pilot of selected EU-countries of the North, South, West and East on national, regional and local level in each of the selected countries
 - Toolkit for PE teachers in a pilot at different education and school levels in local communities in each of the same selected EU-countries
